

SALCIS
— SIENA —

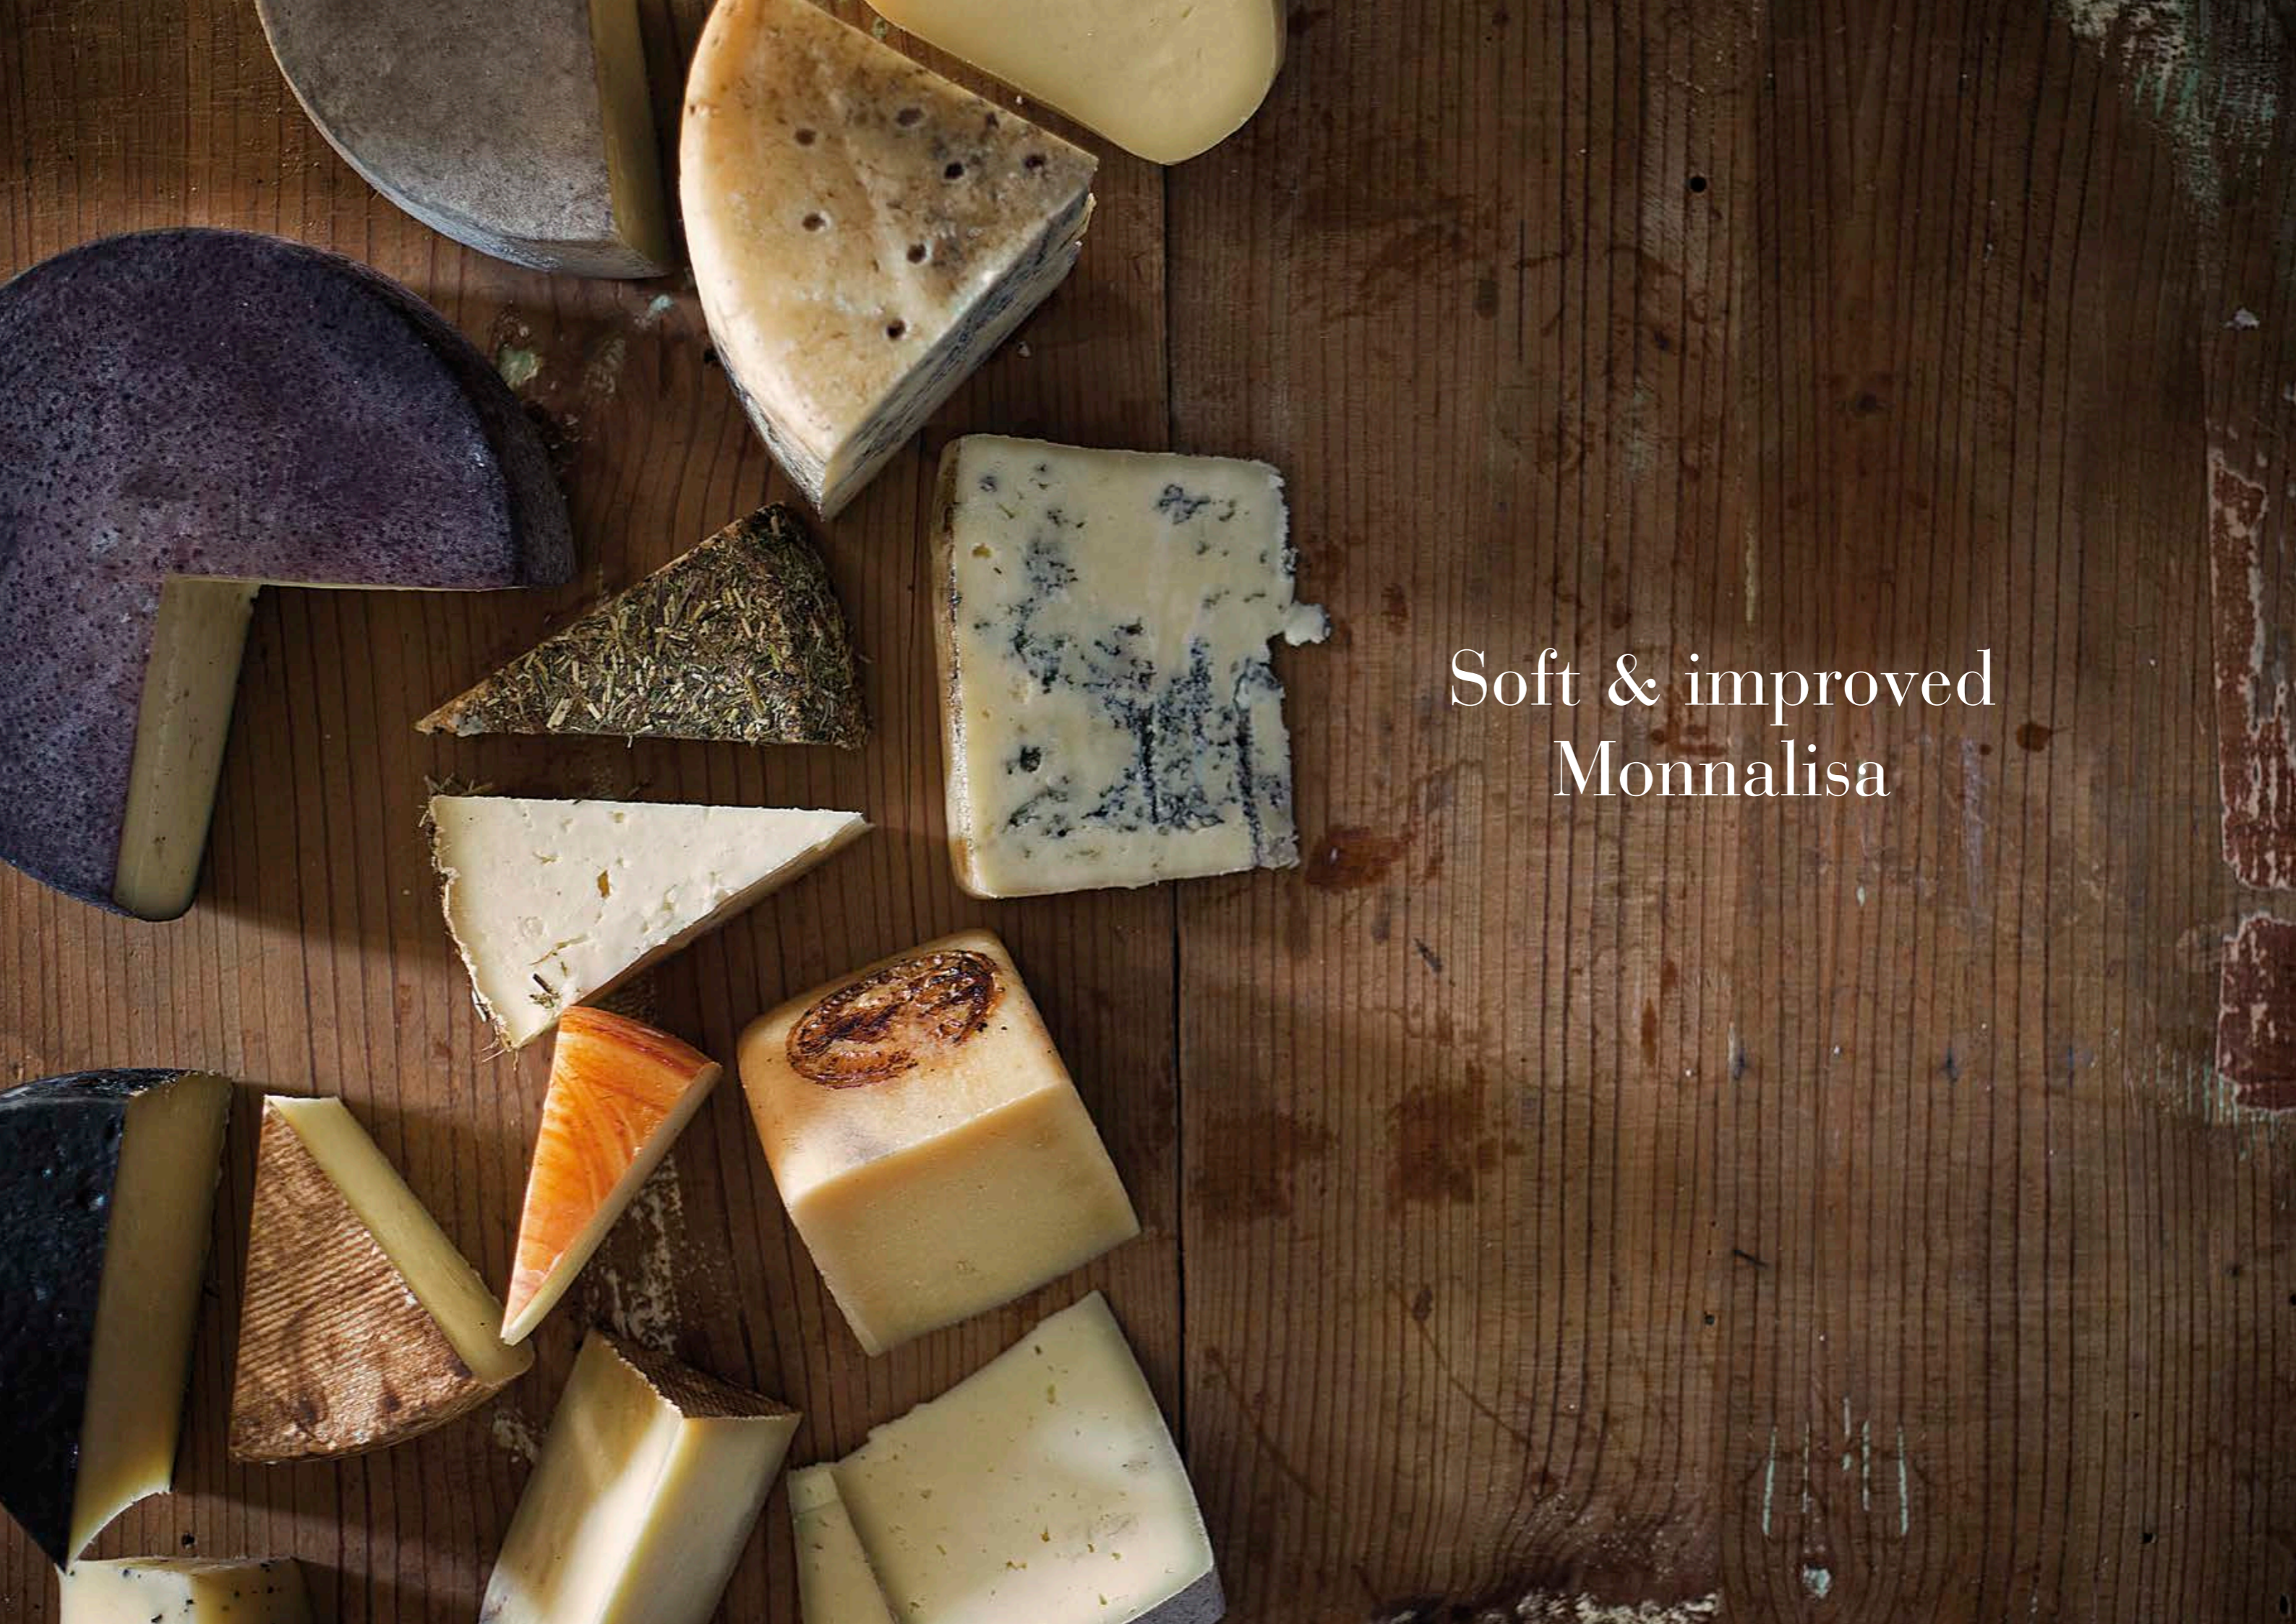

Siena, 1941

During Second World War, because of the restrictions, Sieneese deli workers decided to get together to work pork's meat. S.A.L.C.I.S. born as acronym of Società Anonima Lavorazione Carni Insaccati Siena.

In 1960 begins also the sheep's milk processing, the milk is collected through the shepherds of the surrounding areas of Chianti, the Sieneese Crete and the Orcia Valley.

From the twenty original members of the 80's, Morbidi Family become the sole owner of the company, which is a piece of the history about goodness of Tuscan cured meat and cheeses.

We start from the roof

Our sheepfold is born in 2015 in the splendid area of Fogliano, just 2 km far from Siena; It's a model structure because of the natural material with which it is built and also thanks to the attention of the animal wellbeing. Our choice to become breeders as well is born here, because we know that the milk is the basis of everything.

Don't say cheese

All of our soft, aged, improved and flavoured cheese are produced by the milk of the pastures of the Siense Crete and local areas. Our values are the ones of Tuscan dairy tradition, with the help of the best technologies to reach the final aim: Uncompromising quality.

A wooden cutting board is placed on a grey, cracked surface. On the board, there are several slices of cured meats: a large slice of ham with a white fat cap, a slice of bacon, and several smaller slices of salami. A small piece of bread is also visible on the board. The background is a dark grey surface with prominent black cracks.
